SAVE WASTE PAPER

It is not only the patriotic duty but is in the individual interests of every man, woman, and child in the country to collect every available Scrap of Paper, so that the Irish Paper Mills may be kept running through this time of shortage of paper-making materials.

THE IRISH PAPER MILLS COMPANY guarantee that packs will be supplied and maximum prices fixed by the Government paid by their Contractors, Messrs. M. Duan and Co.

BANKS, PUBLIC OFFICES, and BUSINESS FIRMS having large stocks of old paper should get rid of it now, as the shortage of paper-making material is becoming very acute, and the problem is to keep Mills

THE IRISH PAPER MILLS COMPANY are in a position to guarantee the destruction and repulping of ALL grades of paper, and their contractors will, if necessary, in the case of private documents, prepare the waste paper on the seller's premises and have it taken direct to the Mills and destroyed under the eye of a representative of the seller.

The minimum quantity of waste paper which can be taken in any one consignment is one cwt. Carriage on smaller quantities would be prohibitive.

Send samples, and highest prices will be quoted per return, and cash remitted promptly on receipt of goods.

Of course, this is one of the small items of household management, but

Particularly in these times you require a soap which, while not expensive, can be absolutely relied upon; and all you lay out on Toilet Soap should be invested in the Soap itself, but not in expensive boxes and wrappers—pretty to look at but of

You must have a soap which will suit you, which will not act harshly on the skin, but is emollient and fragrant. We claim all these points for

GERMANS CONTINUE TO FALL BACK ON 100-MILE FRONT.

ALLIES RE-OCCUPY OLD LINES.

On the Western battle line, now over a hundred miles long, the Germans are fighting as best they may to stem the on-rush of the Allied forces. According to their own communiqué, they are withdrawing "according to plan" and fighting rearguard actions, in which their casualties have been very heavy.

Between Ypres and Péronne, from Péronne to the Somme, and from the Somme to the Oise, it is the same story of German withdrawals, with the Allies in hot pursuit. East of Soissons also the Germans have evacuated the Vesle positions, and French and Americans are across that river. In the northern region British troops have, it is unofficially reported,

entered Neuve Chapelle, and have gained their old lines in the The night French report announces the capture of Ham and Chauny. East of the Nord Canal the French have made good progress, and north of the Ailette they occupied the lower forest of Coucy. The

Yesterday our troops crossed the crossings of the Somme south of Peronne, in face of vigorous resistance of the enemy's rearguards on the east bank of the river.

The villages of St. Christ, Brie, and Le Meanil-Bruntel were captured, with a number of prisoners.

Our troops, pushing forward astride the Amiens-St. Quentin road, have reached Athies and Mons-n-Chaussee.

East of Peronne we have taken Doingt, and have made important, progress between Peronne and Nuriu.

An Amsterdam telegram, dated Thursday, says the German papers publish prominently the following manifesto issued by Hindenburg on September 2nd (Sedan Day):—

"We are engaged in a severe battle with our enemies. If numerical superiority alone were to guarantee victory, then Germany would long since have lain crushed on the ground. The enemy knows, however, that Germany and her Allies are not to be vanquished by arms alone. The enemy knows that the apirit which inspired our troops and our nation renders us unconquerable, and has, therefore, along with the lattle against German arms, waged war against the German arms, waged war algainst the German arms, waged war will be blunted if the German spirit a corrected. We should not treat lightly this plan of the enemy. He wages his campaign against our spirit, with various means. The stacking of the grain crops is, this year, of vital importance. The stacks should be conveniently placed for carting or threshing. The stooks should be thoroughly dry before being stacked.

Ricks should be placed at least 12 feet apart at the eaves, to allow the threshing mill to be drawn up between them and thus reduce the time and labour occupied in feeding corn to the machine.

The County Agricultural Instructor may be consulted by any farmer who desires advice on these or other points in connection with the harvesting or cultivation of crops.
